**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Sam Dangremond on 7/7/08.

The application has been amended as follows:

In the claims:

- a) please cancel claims 1-12, 35, 39, and 49;
- b) in claims 26, 29, 31, and 32, please change the period at the end of line 13 to a semicolon;

2. The following is an examiner's statement of reasons for allowance:

The Shibata reference discloses a fuel cell comprising an electrolyte membrane having a dense hydrogen permeable layer and an inorganic electrolyte layer formed on one side of the dense hydrogen permeable layer. However, Shibata et al does not expressly teach a hydrogen permeable material that includes at least two hydrogen separation membrane layers made of different kinds of metal, and a metal diffusion suppression layer provided on at least a part of a contact interface between the separation membrane layers of the different kinds of metal; a reaction suppression layer, provided on at least a part of an interface between the substrate and the

electrolyte layer; an electrolyte layer that is a composite oxide containing an A-site material having an alkali metal element as a principal component and a B-site material having another element as a principal component such that the molar ratio of the A-site material to the B-site material is smaller than the constant molar ratio.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
